

Waimea Regional Safety Study

The State of Hawaii Department of Transportation is working with the community on the Waimea Regional Safety Study using a Planning and Environment Linkages (PEL) process. The PEL process emphasizes collaboration and integration during planning. The first, second, and third community PEL meetings were held in October 2018, December 2018, and March 2019. Reports summarizing those meetings can be found at the project website below.

The PEL meeting No. 4 will continue discussions on project alternatives. All input is welcome. Those who did not attend either PEL 1 (October 10) or PEL 2 (December 5) or PEL 3 (March 6) are encouraged to review those meeting summaries at the website.

Future Community PEL meetings will also be held. For further information, check the project website at:

www.waimearegionalsafetystudy.com

Please join us at the PEL MEETING #4
WEDNESDAY, MARCH 27, 2019
5:00 P.M. TO 7:00 P.M.

Waimea School Cafeteria
67-1225 Mamalahoa Highway, Kamuela, Hawaii 96743

**WE WANT
YOUR
INPUT**
